Note

1. The figures for 1936 and 1938 have been quoted from "The Japanese Investment in China" published in August, 1942 by the East Asia Research Institute, and they include the business loans allowed by private business concerns.

2. With regard to the figures for 1945, the following points should be noted:

a. The amount thereunder given has been worked out by totalling investments made up to the beginning of 1945 by 419 business bodies which have been reported to the Foreign Office. It is, however, thought that there is still a considerable amount of investments which have not yet been reported.

b. As regards the investments by the North China and the Central China Development Companies, such investments which may overlap same made by affiliated companies, have been excluded.

c. As the amount of loans to the former "National Government at Nanking" is not known, they have been excluded from the calculation.
